== **NOW** ==

**MAKING
FASTER
CONNECTIONS**

AMTRAKCONNECTSM IS NOW
OFFERING 4G LTE TECHNOLOGY ON
BOARD ALL WI-FI[®] EQUIPPED TRAINS.

Enjoy the journey.®

FASTER MORE RELIABLE

AMTRAKCONNECT™

ENSURING A BETTER WI-FI® EXPERIENCE

You may have noticed that our Wi-Fi service has improved lately. This is because Amtrak® has enhanced its performance by recently introducing 4G technology.

By adding 4G, we are now better equipped to provide you with a surfing experience similar to what you've become accustomed to in other public environments. Faster page loads, faster downloads, and more reliable connectivity are all now at your fingertips.

To ensure we continually provide every passenger with maximum available bandwidth, high-bandwidth activities such as streaming video and music, and the downloading of files larger than 10MB, will not be supported.

COMMENTS

Here at Amtrak, we are always looking for ways to improve your travel experience. If you have questions or comments, please reach out to us at Amtrak.com/contactus.

For more information about AmtrakConnect Wi-Fi, visit: Amtrak.com/wi-fi.

The term Wi-Fi® is a registered mark of the Wi-Fi Alliance®.
