

WEEKLY RAIL REVIEW

For the Week Ending SAT, January 3, 2004

By Dave Mears

(From Your Editor: A Happy New Year to all WRR readers. And thank you for continued interest in Weekly Rail Review; my way of keeping up with the news of the rail and transit industries and with my acquaintances in them.)

THE WEEK'S TOP NEWS (in chronological order):

(SUN) A Reading & Northern Railroad freight train derailed in Pittston, PA. 27 cars derailed in the accident. No injuries were reported. The cause of the derailment was still under investigation at press time. (ffd: Railpace)

(WED) New York City marked the last day of use of transit tokens. The tokens, which were bought at booths and were used on the city's buses and subways for over 50 years, have been replaced by electronically encoded MetroCard fare cards, which were first used in 1994. The tokens were only good for bus fares on this final day of use, having been phased out for subway use in mid-2003. (ffd: New York Daily News)

(THU) The Brotherhood of Locomotive Engineers was officially merged into the International Brotherhood of Teamsters. The merger followed a December 5 ratification vote by each union's membership. Effective this date, the BofLE is now known as the Brotherhood of Locomotive Engineers and Trainmen (BLET). (ffd: BofLE)

(THU) Houston, TX. began revenue service on its new light rail line, known as Houston Metrorail. The line, totaling approximately 8 miles in length, runs from Main St., Houston south to suburban Reliant Park. (ffd: NARP)

(FRI) The U.S. Department of Energy released a study forecasting that coal will generate 52 percent of the nation's electricity by 2025, up from 50 percent currently. The study also forecast that total U.S. coal consumption would increase from 1.07 billion tons in 2002 to 1.57 billion tons in 2025, and production from 1.1 billion tons in 2002 to 1.54 billion tons in 2025.
